

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	18 June 2026
Team ID	-
Project Name	SHOPEZ : E-commerce Application
Maximum Marks	4 Marks

Step-1: Team Gathering, Collaboration and Select the Problem Statement

 Brainstorm & idea prioritization Project Name ShopEZ – E-Commerce Platform Developer K. Charan Teja  10 minutes to prepare  1 hour to Work-On  Individual Developer	 Before you Work-On A little bit of preparation goes a long way with this session. Here's what you need to do to get going.  10 minutes A Set the goal Identified Problem Online shopping platforms often lack a simple and user-friendly experience for product discovery, cart management, secure checkout, and order tracking. Small businesses also face difficulties managing products, inventory, and customer orders efficiently. B Identify the Target Users Target Users • Online shoppers/customers • Small business owners • Product sellers/vendors • Store administrators • Mobile and web users looking for convenient shopping experiences	1 Define your problem statement What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.  5 minutes PROBLEM Customers need a secure, fast, and user-friendly online shopping platform that allows them to browse products, manage carts, place orders, and track purchases easily. Sellers require an efficient system to manage products and inventory. HOW MIGHT WE How might we create a complete e-commerce ecosystem that enables customers to discover products, add items to carts, securely complete purchases, track orders, and allows administrators to manage products, inventory, and customer transactions efficiently?
